

Medical Silicone Caps

Medical Silicone Caps SRC-MED Series

Caplugs SRC-MED series of medical silicone caps are used to protect the ends of delicate medical instruments, tubes ends, and other projections. The full range of sizes allow protection for a variety of tip and port dimensions.

The SRC-MED series caps are made of medical grade silicone material and produced by Caplugs in a controlled environment to ensure cleanliness and trace-ability requirements are met.

- Available in 31 sizes
- All parts are washed, dried and inspected prior to packaging
- Parts are double bagged before boxing & shipping
- Clear in color to allow for full visibility of the application being protected
- The silicone is 55 durometer shore A

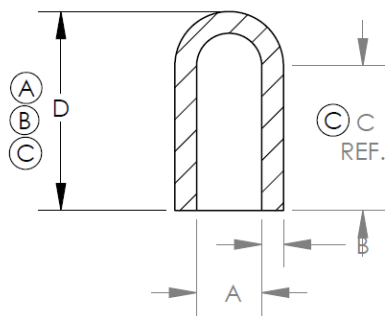

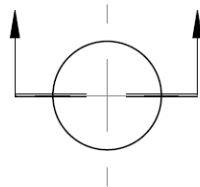

Material: Certified USP Class VI Silicone Rubber

Color: Natural
